

Keeping your money safe

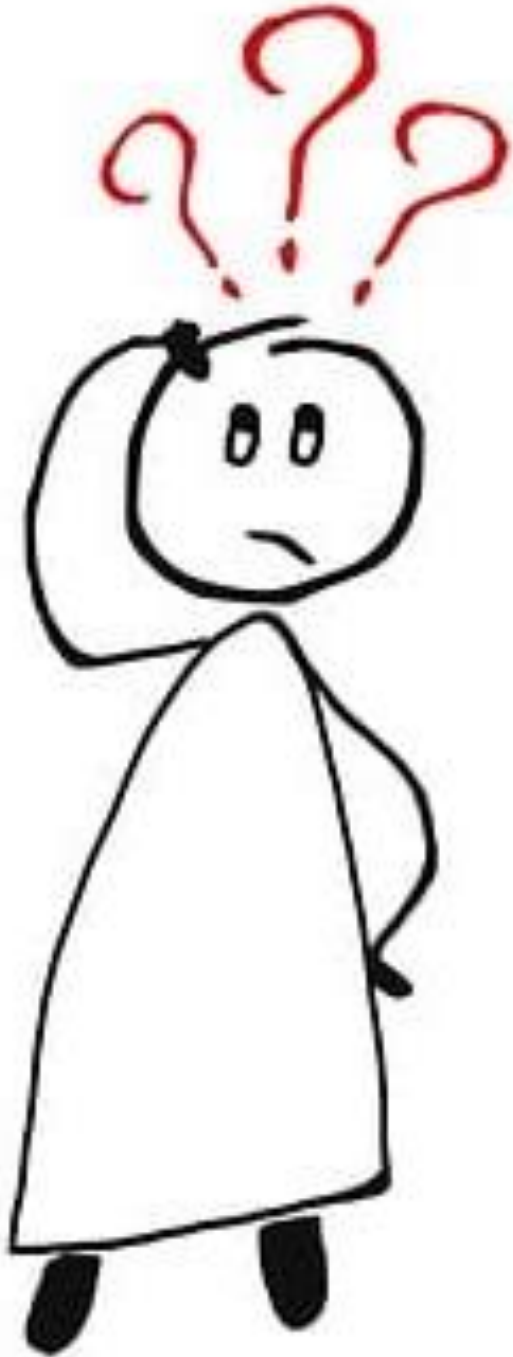

- Some people are desperate for money.
- They will take your cash whenever they get the chance.
- They won't pay it back.
- They may trick you to get money.
- This can make you angry.

- Sometimes people will pretend to be your friend and offer to do things for money.
- They may tell you a load of old bull so you feel sorry for them and hand them cash.
- They won't pay it back.
- They may lie and say you never gave them money.

- Sometimes you may feel lonely.
- You may buy drink and fags for people so they spend time with you.
- When the drink and fags have gone they may go too.
- They may not repay the favour.

- Have these things happened to you?
- What did you feel?
- Do you want it to stop happening again?

Let's think of some ideas to stop people poncing off you....

1. Letter to bank that they only give you money.
2. Keep money in your wallet unless you are in your room.
3. Spend your money on some nice things just for you.
4. Meet a befriender.
5. Go to activity groups.
